

MUHAMMAD ANAS

Flutter Developer | Cross-Platform Mobile & Web Application Engineer

Kohat, Khyber Pakhtunkhwa, Pakistan | anasktk2125@gmail.com | +92 324 1788391 | github.com/MuhammadAnas323 | linkedin.com/in/muhammad-anas-213775386

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with hands-on experience building scalable, high-performance, cross-platform mobile and web applications using Dart, Flutter SDK, Firebase, Supabase, and RESTful APIs. Skilled in Clean Architecture, MVVM design patterns, and modern state management solutions including Provider, Riverpod, and GetX. Proven ability to deliver end-to-end solutions - from UI/UX implementation to backend integration - across e-commerce, fitness, hospitality, and enterprise workforce-management domains. Strong Agile mindset, version control proficiency (Git/GitHub), and a track record of shipping production-ready applications on time. Seeking to bring proven cross-platform development expertise to a forward-thinking international team.

CORE COMPETENCIES & TECHNICAL SKILLS

- Languages & Frameworks: Dart, Flutter SDK, C++
- Architecture & Design Patterns: Clean Architecture, MVVM, Modular App Design
- State Management: Provider, Riverpod, GetX
- Backend & Cloud Services: Firebase (Authentication, Firestore, Cloud Storage), Supabase, RESTful API Integration
- Development Tools & Platforms: Git, GitHub, Android Studio, VS Code, Google Antigravity
- Other Competencies: Cross-Platform Mobile Development (iOS & Android), Progressive Web Apps (PWA), Responsive UI/UX Implementation, Agile/Scrum Collaboration, API-Driven Application Development

PROFESSIONAL EXPERIENCE

Flutter Developer | XovaCraft Technologies, Pakistan

July 2026 - Present

- Design, develop, and maintain scalable cross-platform Flutter applications following Clean Architecture and MVVM principles to ensure long-term maintainability.
- Integrate RESTful APIs and cloud backend services (Firebase/Supabase) to power real-time, data-driven mobile experiences.
- Implement efficient state management solutions (Provider, Riverpod, GetX) to optimize app performance, responsiveness, and code maintainability.
- Collaborate with cross-functional teams within Agile development cycles, participating in code reviews and Git/GitHub version control workflows to deliver production-ready releases.

Flutter Developer | LogicCraft Technologies, Pakistan

July 2025 - June 10, 2026

- Developed and shipped multiple cross-platform mobile and web applications using Flutter and Dart across e-commerce, fitness, hospitality, and workforce-management domains.
- Built a real-time Weather App featuring live API integration, dynamic UI updates, and optimized state management for forecast, temperature, and humidity tracking.
- Engineered a full-featured Task Management application with CRUD operations, Firebase Authentication, Supabase cloud storage, and real-time state management using Provider/GetX.
- Designed the Luxe Restaurant Management System, a cloud-based Progressive Web App (PWA) with inventory tracking and profit/loss analytics for restaurant operations.
- Built a GPS-based Attendance & Payroll System leveraging geofencing technology to automate employee attendance tracking and payroll processing.
- Created GraphyStudio, an Urdu-language graphic design platform featuring custom typography rendering and high-resolution export functionality.
- Delivered FitLife, a fitness-tracking application with workout analytics and a fully responsive UI across mobile and web devices.

KEY PROJECTS

- Weather App - Real-time weather forecasting app with API integration and dynamic, state-driven UI.
- ToDo App - Task management application with Firebase Authentication, Supabase storage, and real-time CRUD functionality.
- Luxe Restaurant Management System - Cloud-based PWA for restaurant inventory and profit tracking.
- GPS-Based Attendance & Payroll System - Geofencing-enabled employee attendance and payroll automation platform.
- GraphyStudio - Urdu graphic design platform with custom typography and high-resolution export.
- FitLife - Fitness tracking application with workout analytics and responsive UI.
- Tailor Management System - Order and customer measurement management application for tailoring businesses.

EDUCATION

Bachelor of Science in Computer Science

Khushal Khan Khattak University, Karak

2021 - 2025

LANGUAGES

English (Intermediate) | Urdu (Fluent) | Pashto (Native)
