

MUHAMMAD ANAS

Flutter Developer | Cross-Platform Mobile & Web Application Engineer

Islamabad, Pakistan | anasktk2125@gmail.com | [+92 324 1788391](tel:+923241788391) | github.com/MuhammadAnas323 | linkedin.com/in/muhammad-anas-213775386

PROFESSIONAL SUMMARY

Results-driven Flutter Developer experienced in building scalable, high-performance, cross-platform mobile and web applications using Dart, Flutter SDK, Firebase, Supabase, and RESTful APIs. Skilled in Clean Architecture, MVVM design patterns, and modern state management (Provider, Riverpod, GetX), with a proven record of delivering end-to-end solutions from UI/UX implementation to backend integration across e-commerce, fitness, hospitality, and enterprise workforce-management domains. Strong Agile mindset, version control proficiency, and a track record of shipping production-ready applications on time.

CORE COMPETENCIES & TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter SDK, C++

Architecture & Design: Clean Architecture, MVVM, Modular App Design

State Management: Provider, Riverpod, GetX

Backend & Cloud: Firebase (Authentication, Firestore, Cloud Storage), Supabase, RESTful API Integration

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Google Antigravity

Additional Skills: Cross-Platform Development (iOS & Android), Progressive Web Apps, Responsive UI/UX, Agile/Scrum Collaboration

PROFESSIONAL EXPERIENCE

Flutter Developer — XovaCraft Technologies, Pakistan

July 2026 – Present

- Design, develop, and maintain scalable cross-platform Flutter applications using Clean Architecture and MVVM principles for long-term maintainability
- Integrate RESTful APIs and cloud backend services (Firebase/Supabase) to power real-time, data-driven mobile experiences
- Implement state management solutions (Provider, Riverpod, GetX) to optimize app performance, responsiveness, and code maintainability
- Collaborate with cross-functional teams within Agile development cycles, contributing to code reviews and Git/GitHub version control workflows

Flutter Developer — LogicCraft Technologies, Pakistan

July 2025 – June 2026

- Shipped 7+ cross-platform mobile and web applications using Flutter and Dart across e-commerce, fitness, hospitality, and workforce-management domains
- Built a real-time Weather App with live API integration, dynamic UI updates, and optimized state management for forecast, temperature, and humidity tracking
- Engineered a Task Management application with full CRUD functionality, Firebase Authentication, Supabase cloud storage, and real-time state management (Provider/GetX)
- Designed Luxe, a cloud-based Progressive Web App for restaurant management with inventory tracking and profit/loss analytics
- Built a GPS-based Attendance & Payroll System leveraging geofencing to automate employee attendance tracking and payroll processing
- Delivered GraphyStudio (Urdu-language design platform with custom typography and high-resolution export), FitLife (fitness-tracking app with workout analytics), and a Tailor Management System for order and measurement tracking

EDUCATION

Bachelor of Science in Computer Science

2021 – 2025

Khushal Khan Khattak University, Karak
